

Inaugural Training Program on Capacity Building of Agricultural Extension Professionals at ICAR-CIPHET, Ludhiana

Dated: 24 June 2024

ICAR-CIPHET, Ludhiana, is delighted to inaugurate a training program aimed at building the capacity of agricultural extension professionals from ATARI Zones VII and X. This program, running from June 24 to June 28, 2024, focuses on promoting agro processing to enhance the value of agricultural produce. Dr. Nachiket Kotwaliwale, Director of ICAR-CIPHET, emphasized the program's goal to equip professionals with the latest knowledge and skills in agro processing technologies.

A total of 13 participants are attending the training, which includes expert lectures, practical demonstrations, and field visits to agro processing units. This initiative aims to empower agricultural extension professionals with the necessary skills to drive the adoption of agro processing technologies among farmers, leading to sustainable agricultural development.
