

ICAR-CIPHET Ludhiana Steals the Spotlight at the 3rd Environmental Conservation Extravaganza-2024

ICAR-CIPHET took centre stage at the third Environment Conservation Fair-2024, organized by the Society for Conservation and Healing of Environment (SOCH), in collaboration with the municipal corporation of Ludhiana at Nehru Rose Garden on February 3 and 4, 2024. Despite the rain, the event attracted a large crowd eager to explore the innovations featured at the ICAR-CIPHET Ludhiana stall.

The showcased technologies and products, including groundnut and soybean milk, millet processing, and mechanized makhana processing, garnered significant attention from visitors. Young farmers and entrepreneurs displayed keen interest in these innovations, with many swiftly signing up for upcoming training programs led by ICAR-CIPHET.

ICAR-CIPHET Ludhiana's impactful role in agricultural technology development was prominently highlighted at the 3rd Environment Conservation Fair-2024. The institute remains dedicated to fostering positive change in the agricultural sector through continuous innovation and the dissemination of knowledge.
